

Worksheet 14: Survival Guide

Student name: _____

Teacher: _____ Class: _____

Think back to your experiences of starting at a new school or beginning secondary school. Interview other students who may have some tips for new students about having a 'stress free' transition.

You are asked to prepare a **survival guide for a new student**, including information that looks not only at school routines but also social interactions. You can present this information as a **brochure, website or poster**.

Tip: Be mindful of the audience you are connecting with and what colours, lay-out, text and illustration(s) would attract their attention.

Draft out some ideas in the space below.
